New Source Review newspaper advertisements for construction permit applications, November 29, 2007. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: November 27, November 28, or November 29, 2007. Public notices are generally published every two weeks. The previous publication of public notices was November 15, 2007.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is <u>DENSO Manufacturing Tennessee</u>, <u>Inc.</u> with a mailing address of <u>1720 Robert C. Jackson Drive</u>, <u>Maryville</u>, <u>TN 37801</u>. They seek to obtain an air contaminant permit (Division identification number: <u>05-0138-39/61438</u>) for the modification of their <u>Die Cast and Shot Blast operations</u> located at <u>the same address</u>. This existing operation consists of 12 die cast machines and 12 shot blast machines along with aluminum holding furnaces. A wet scrubber and a baghouse are used for pollution control for the current operation. The requested modification is for the addition of two die casting machines and two shot blast machines. Two wet scrubbers would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Steven Simpson is the assigned Division person.

For the Blount County Maryville Daily Times -- published once on or before Thursday, November 29, 2007.

The applicant is <u>Mountainside Coal Company</u> with a mailing address of <u>7692 South Highway 25W</u>, <u>Williamsburg, KY 40769</u>. This company seeks to obtain an air contaminant permit (Division identification number: <u>07-0098-01/60878</u>) for a <u>Coal Tipping Operation</u> located at <u>548 Wooldridge Pike</u>, <u>Jellico, TN 37762</u>. This source consists of unloading, transferring, crushing, sizing, conveying, and truck and rail loading of coal. Wet suppression would be used for pollution control. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. Doug Warden is the assigned Division person.

For the Campbell County *Jellico Advance-Sentinel* -- published once on or before Thursday, November 29, 2007.

The applicant is <u>Precision Flooring Products</u>, <u>Inc.</u> with a mailing address of <u>P.O. Box 3155</u>, <u>Morristown</u>, <u>TN 37814</u>. They seek to obtain air contaminant permits to for sources located at <u>1735 West First North</u>, <u>Morristown</u>, <u>TN 37814</u>, as follows:

(1) <u>Woodworking Operation</u> (Division identification number: <u>32-0239-01/61487</u>). This proposed operation would consist of two ripsaws, one band saw, various sanders, molders, and associated equipment to cut lumber Air Pollution Control

to different sizes. A cyclone will be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. DeWitt Logsdon is the assigned Division person.

(2) <u>Wood-Fired Boiler</u> (Division identification number: <u>32-0239-02/61484</u>). This proposed operation would consist of a wood-fired boiler and other equipment used to produce steam for heating of the facility. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. DeWitt Logsdon is the assigned Division person.

For the Hamblen County Citizen Tribune -- published once on or before Thursday, November 29, 2007.

The applicant is Manufacturers Industrial Group with a mailing address of 659 Natchez Trace Drive, Lexington, TN 38351. They seek to obtain an air contaminant permit (Division identification number: 39-0077-01/61490) for construction of a Surface Coating Operation located at 226 Rush Drive, Lexington, TN 38351. This operation would consist of two (2) spray paint booths and associated equipment used to paint structural steel beams and columns. An exhaust filter would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. E. King is the assigned Division person.

For the Henderson County Lexington Progress -- published once on or before Thursday, November 29, 2007.

The applicant is <u>Hughes Parker Industries</u>, <u>LLC</u> with a mailing address of <u>1604 Mahr Ave</u>, <u>Lawrenceburg</u>, <u>TN</u> <u>38464</u>. They seek to obtain an air contaminant permit (Division identification number: <u>50-0059-01/61350</u>) for installation of a <u>Surface Coating Operation</u> located at <u>200 Helton Drive</u>, <u>Lawrenceburg</u>, <u>TN</u> <u>38464</u>. This proposed operation would consist of a conventional air atomized sprayer and associated equipment used in coating metal. An exhaust filter would be used for pollution control. Regulated air contaminants would be emitted by this source. Mr. Jim A. Attar is the assigned Division person.

For the Lawrence County *Democrat-Union* -- published once on or before Thursday November 29, 2007.

FIRST APPLICANT:

The applicant is <u>Aleris International, Inc.</u> with a mailing address of <u>P.O. Box 187, Loudon, TN 37774</u>. They seek to obtain an air contaminant permit (Division identification number: <u>53-0079-03/59008</u>) for the modification of their <u>Reverberatory Furnace</u> located at <u>388 Williamson Drive, Loudon, TN 37774</u>. The existing operation consists of a side-well reverberatory furnace with two emission points, side-well (S-2) and hearth (S-3). This proposed modification would increase the allowable emission rate of particulate matter for the hearth (S-3) to 3.0 pounds per hour from 1.0 pounds per hour. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. Steven R. Simpson is the assigned Division person.

SECOND APPLICANT:

The applicant is <u>Tate and Lyle Ingredients Americas</u>, <u>Inc.</u> with a mailing address of <u>2200 East Eldorado Street</u>, <u>Decatur</u>, <u>IL 62525</u>. They seek to obtain an air contaminant permit (Division identification number: <u>53-0081-72</u>, <u>73</u>, <u>& 74/61444</u>) for the modification of their <u>propanediol production operation</u> located at <u>198 Blair Bend Drive</u>, <u>Loudon</u>, <u>Tennessee</u>. The existing operation consists of seed/production fermentation vessels, separations, refining, distillation and biomass drying along with wet scrubbers for control of volatile organic compounds, ammonia, and particulate matter. This proposed modification would reallocate the allowable emissions of volatile organic compounds and ammonia. There would be no increase in overall allowable emissions of volatile organic compounds and ammonia. There would be an increase in the allowable emissions of particulate matter. There would be no physical construction. Regulated air contaminants would be emitted by this source. Mr. Steven R. Simpson is the assigned Division person.

2

The applicant is <u>Food City Gas N Go #605</u>, with a mailing address of <u>P.O. Box 1158</u>, <u>Abingdon, VA 24212</u>. They seek to obtain an air contaminant permit (Division identification number: <u>82-0419-01/61479</u>) for construction of a <u>Gasoline Dispensing Facility</u> located at <u>1767 Fort Henry Drive</u>, <u>Kingsport</u>, <u>TN 37664</u>. This proposed operation would consist of two gasoline storage tanks and associated gasoline dispensing equipment. Stage I gasoline vapor recovery is used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. Hymelia Craig is the assigned Division person.

For the Sullivan County *Kingsport Times-News* -- published once on or before Thursday, November 29, 2007.

The applicant is <u>Southern Source Incorporated</u> with a mailing address of <u>456 Swanson Drive</u>, <u>P.O.Box 727</u>, <u>Dresden</u>, <u>TN 38225</u>. They seek to obtain an air contaminant permit (Division identification number: <u>92-0114-01/61230</u>) for construction of a <u>Dust Collector</u> located at <u>221 Greenfield Products Road</u>, <u>Greenfield</u>, <u>Tennessee 38230</u>. This proposed operation is associated with an existing woodworking operation. A baghouse would also continue to be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Jim A. Attar is the assigned Division person.

For the Weakley County Press -- published once on or before Thursday, November 29, 2007.

The applicant is MOST, Inc. with a mailing address of 355 James Lawrence Road, Jackson, TN 38301. They seek to obtain an air contaminant permit (Division identification number: 57-0286-04/61486) for a new natural gas-fired Scrap Aluminum Melting Furnace located at James Lawrence Road, Jackson, TN 38301. Natural gas would be used for fuel. A spark arrester followed by a lime-injected baghouse would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Ahmed is the assigned Division person.

For the Madison County Jackson Sun Daily -- published once on or before Thursday, November 29, 2007.
